TEXAS LEAGUE NOTES

The Galveston Sand Crabs have signed a new catcher and he has joined the team. His name is McLean and he falces must have felt when they were comes from a jerkwater college of the central states. Despite this fact he is said to be a fast man.

Well, what do you think of that? Imagine the chagrin the Houston Buffalces must have felt when they were walloped for two games by Shreveport. Following the black eye the league managers gave the team on Saturday said to be a fast man.

They just can't keep that boy Shontz, of the Dallas, team, back. When he gets to going he makes monkeys out best work. He is catching a majority of the games. The other players are simply being held until some better men can be picked up to take their That's a fine record.

Pitcher Fred Beebe, of the Cincinnati Reds, is in despair over his inabil-ity to secure control this year. Manager Griffith has not lost faith in him and the pitcher is connected regularly with the payroll.

Shortstop Tony Smith, from Galveston, has crowded Tiny Mc-Millam out of the shortstop's berth at Brooklyn. Smith first went to Washington, but that team did not size him up as any good and he was passed off in a trade to Brooklyn, Washington thinking they had luckily unloaded a gold brick. Tony has made good from the start this season. No shortstop is doing better and he looks like a fixture in big league company for some time to come.

. . . Pitcher Bill Burns, of the Cincinnati Reds, is a Texan, and spends a pertion of every winter in this state. Bill has money of his own and is not dependent on ball playing for a living. He plays because he loves the game, incidentally takes all the salary that comes his way. He has played ball in California and is a globe trotter. He has made three trips to Hono-lulu and one to Japan and China. He will spend winter in Europe. will spend a portion of the coming

Harry Howell, of the St. Louis Amercans, is laid up with a bad shoulder, which seems incurable. He is said to be slated for a berth as umpire.

Rogers, who Atlanta has sold to San Antonio, has pitched 13 games in the Southern league. He won nine and lost five. Just why such a pitcher is being turned loose is hard to understand. He must have some failing which his official record does not show

Washington is bound to get a good team if hustling can do it. That team now has four scouts on the road and a good many likely youngsters are purting their names to contracts. One of the secuts is said to be gum shoeing about in Taxas.

vere beating was wholly unexpected. Clifton's one hope lay in the arrival of her squad from the east. The new men reached El Paso Saturday, and although C. Q. D. messages were sent out from the stranded team in Bisbee, the new men were unable to make connec tions, and Scanlan had to lead his battered squad on the field again Sunday. The Clifton lineup in Bisbee included wo Morenci utility men.

The fans are not worrying over the defeats, but are now looking forward o the Fourth of July series. The long ooked for relief squad has arrived and look good, and the club reorganmation will probably be accomplished The return of Earl Mason will add to the club's strength and with im came Klepfer, a slab artist, and Hirshman, who will probably do receiving, Blythe, an infielder, and Lydick, an outfielder. McCleary, who was detained, will arrive Friday, and Mcliveen, captain of last year's team, may also come with him, though this is not yet assured. With Bousquet, Williams, Scanlan, Newell, Abbott, Baroldy and Clifford of the old squad, Clifton has abundant material for the new team. Morenci will play in Clifton Saturday nd Monday, and Clifton at Morenel The reinvenated locals will Sunday. try to duplicate Douglas's trick and take three from the deposed leaders, while Morenci will try to regain her lost points at the expense of her old time rivals. The series promises to be the most interesting yet.

................ Three games will be played, one Saturday, one Sunday and one on Monday, the Fourth. Cananea will come over Friday night. Booles and Anderson will again take a fling at them, with either Rumsey or Gill handling the other game. In all probability DeWiggins will umpire. With Bisbee and Douglas playing three games, one Sunday and the other two on the Fourth at Bisbee, the teams will probably saw off in such a manner that the standings will not increase much, as a fourth game is pro-posed for Bisbee. The Sunday game will be in Douglas. During this time, El Paso proposes to climb.

El Paso is carrying on some quiet negotiations for an infielder and if the Huskles land him there'll be somebody on the job who will make them all hustle around short field on this circuit. Who he is will be announced when he arrives in El Paso, to prevent any other ambitious club hereabouts from easting out a tempting looking hook.

El Paso Life Insurance

Capital Surplus \$200,000.00 Company? Surplus \$100,000.00

In considering this Investment Offer, the following Points should be borne in mind:

FIRST: That immense fortunes have been made, and are being made, in Life Insurance Stocks, the most profitable of all forms of legitimate business. SECOND: That there is a growing local sentiment toward the upbuilding of institutions of this kind, especially in regard to old line Life Insurance.

THIRD: There is a general inclination to favor a new Life Insurance Company, that is conducted upon clean cut principles of justice and honesty by a capable and resourceful management.

FOURTH: That Texas Life Insurance Companies are endorsed by the leading bankers, professional men and merchants throughout the state, as is evidenced by their taking stock in them. FIFTH: That the El Paso Life Insurance Company's stock is absolutely

safe under the compulsory legal reserve deposit laws of Texas, and will grow more rapidly in value than any other stocks available. SIXTH: Life Insurance Companies have heretofore been financed practically by a few people with the result that the enormous profits which have been made, and are making, remain in a few hands. Hence, the public have generally

known very little of the enormous profits made by these few. SEVENTH: The plan of the El Paso Life Insurance Company, in distributing its Capital Stock, is one by which it not only offers a remarkable opportunity for investment, but at the same time puts into effect a successful method of securing the cooperation of its stockholders in the upbuilding of the company's interests, affording an opportunity which will be quickly seen and appreciated.

EIGHTH: That this company will go into other states and do its part toward bringing back in annual premiums the millions of dollars which have heretofore been sent away in premiums.

NINTH: That by securing stock in the El Paso Life Insurance Company

you have an opportunity of personally and effectively promoting the business of a company in which you are interested, and thus adding to your profits and the value of your holdings as well as the upbuilding of your section of the country. Don't wait until the stock is either advanced or withdrawn from the

market. Par value \$100 per share, selling price now \$175 per share.
